Hager HDG250

Dipl.-Ing. Olaf Thelen
Head Of Jury

Quality + performance

The lathe HDG250 from Hager receives the WORLD TOOL AWARD in the „Professional“ class of the lathe category.

The WORLD TOOL AWARD is given to the HDG250 because it particularly impressed the jury in terms of quality and performance.

The WORLD TOOL AWARDS are presented annually. With the awards, the jury of experts recognizes products that stand out from the competition thanks to new ideas or technologies, precise and durable workmanship, the use of high-quality materials, or an outstanding ratio of purchase price to utility value.
